

Our Time to Shine

We've waited all year long just for this moment,
And now that it's arrived, it's pure enjoyment.
We're here to sing, 'cause that's our thing;
It's what we're gonna do.

We're ready for the show and it's our mission
To sing you all our songs, with your permission.
We're on the stage, we're all the rage,
And we don't want this night to end.

Because we're in this together,
And we'll remember forever
This time tonight, when we were stars,
With dancing feet and air guitars.
So please get behind us, cheer and support us,
We're gonna show you where life can take us;
This is our moment, our time to shine!

When life is hard and you are feeling gloomy,
Put on a great big smile and you'll feel groovy.
Just sing this song, you can't go wrong,
It sends your blues away.

And yes, when times are hard, you feel downhearted,
But that won't stop us wanting to get started.
So here we are, just like a star,
And we're so proud we've come this far.

Because we're in this together,
And we'll remember forever
This time tonight, when we were stars,
With dancing feet and air guitars.
So please get behind us, cheer and support us,

We're gonna show you where life can take us;
This is our moment, our time to shine!

Ev'ryone come on, let's have some fun,
We're gonna party together, now and forever.
Ev'ryone from Grandma to Grandson
Put on your dancing shoes,
There ain't no time to lose!

Life can be gloomy,
But, when you boogie, life is fun!
So let's raise the roof
And we'll boogie together;
Boy, girl, whoever.

Because we're in this together,
And we'll remember forever
This time tonight, when we were stars,
With dancing feet and air guitars.
So please get behind us, cheer and support us,
We're gonna show you where life can take us;
This is our moment, our time to shine!

Here is our moment,
Now is our moment,
This is our moment,
Our time to shine!
